MAHAFFEY TEAM WALKED OFF THE FIELD

Unfortunate Dispute Ends
Good Game Of Baseball In
The Sixth Inning.

SHOULD HAVE FINISHED GAME

There are some fellows in Clearfield little enough to crawl through the smallest worm hole in the fence surrounding the park where the C. C. A. A. team is playing rattling good baseball. Nine chances out of ten these miserable "worm holers" are the fellows who do the most knocking on the game and the playing of the players. Why don't they crawl thru the worm holes? They would not stand the chance of ruining clothes as they do when they climb over the fence or squeeze thru the boards. Spot these "worm holers."

On Thursday afternoon every man who pays an admission will be given a tag to wear. This tag will indicate that he is a real he-man and has paid his way in. The "worm holers" will have no tags. Spot them and make their miserable lives more miserable.

One of those fiascos which help no body and don't do the baseball game any good occurred at the driving park yesterday afternoon when the Mahaffey team found fault with a decision of Umpire Batten, of Clearfield, and walking off the field refused to continue to play and the game was forfeited to the home team by the usual 8 to 0 score.

The blow-up occurred at the ending of the first half of the sixth inning and was due to the only decision of the local umpire at which the visitors kicked.

Some feeling was shown in the fourth inning. There were Clearfield men on second and third in the fourth inning with Yates, our most dependable hitter, at the bat, when Hurd, the Mahaffey umpire, called two rotten strikes on him in succession. Hurd was umpiring from back of the pitcher and as the ball left the pitcher's hand he would run up two or three steps in an effort to see it cross the plate. Yates objected to the called strikes and Hurd took offense at the criticism and attempted to bench Yates. Left-handed compliments were passed between the two men at the time, but at the end of the following inning had cooled off and each apologized to the other.

In Mahaffey's half of the sixth runners were on first and second with one out, when the batter hit a long fly to deep left centre. Harry Gaylor made a fine running catch of the ball and when the ball settled into Gaylor's glove the runner on second made a dash for third. No effort was made to catch the man at third but the ball was thrown to McNichol at second, who touched the bag and Umpire Batten declared the runner out, retiring the side.

Mahaffey immediately put up a roar. Manager Byron refused to allow his men to take the field and after waiting the required time Umpire Batten forfeited the game to Clearfield 9 to 0. The score at the time was Clearfield, 2; Mahaffey, 1.

Second Baseman McNichol, Shortstop Robinson and Umpire Batten contended that the base-runner had a twenty foot lead at second when the ball was hit, and that he returned until within three or four feet of the base and stopped. When Gaylor caught the ball this runner made no attempt to touch the base as he should have done but immediately beat it for third, hence the play which ended the game.

The unfortunate happening was a surprise to the spectators, who were at sea as to the reason for the flare up of the writer among them. We, like every other spectator at the game, followed the fly ball and watched the fielder's attempt to catch it and paid no attention to the base runners. The umpire was umpiring the bases and was within twelve feet of second when the play was made.

However, it was unfortunate that such a situation should arise, and it

(Continued On Page Five.)

CHAUFFEUR A SUICIDE IS BLAMED FOR KILL- ING WIFE OF BROKER

NEW LONDON, Conn., July 13.—Bernard Geisler, chauffeur whom the authorities believed shot and killed Mrs. Arthur De Cordova, wife of his employer, a broker, on a lonely road near Stonington, Conn., and then shot himself, died in a hospital here today.

The shooting came as a climax to what authorities believe was an apparent joy ride. The body of Mrs. De Cordova was found lying beside the automobile in which the couple had been riding for several hours. Geisler's body was found across a barbed wire fence a short distance away with three bullet wounds in his temple. Between them was an army revolver.

Farmers who had seen the automobile yesterday afternoon said it was driven at a high rate of speed. Examination of the machine disclosed a half filled bottle of whiskey and many cigarette stubs. The body of Mrs. De Cordova was taken to Mystic for examination. About \$80 in cash and valuable jewelry was found.

Mrs. De Cordova was spending the summer here with her two children, a boy aged 21 and a girl aged 18. Her husband who brought the family here in July returned to New York for a few days but is expected here today.

The chauffeur came here with the family. He is married and his wife lives in New York City. He has been the chauffeur for the De Cordova family for two years. The couple started motoring early in the afternoon. They were seen on the roads near here by several persons but no one saw the shooting.

The first ones to know of the affair was a party of automobilists passing through who came upon the bodies. Geisler did not recover consciousness before he died. Mrs. De Cordova was struck by two bullets, one going through her heart and one in her left side.

NEW YORK, July 13.—Arthur De Cordova, a member of a New York brokerage firm whose wife was slain near New London, Conn., left here early today for the scene of the shooting. Relatives said that De Cordova expressed great faith in his chauffeur, Bernard Geisler who committed suicide after he shot Mrs. De Cordova. Geisler has been in the employ of the De Cordovas for several years, relatives said. Mrs. Geisler was prostrated when she heard of the shooting at her home here. She said she had received only one letter from her husband since he had gone to the summer resort. This was a short note received last Sunday.

BATTLESHIP HURON OFF TO CHINA TO PROTECT AMERICANS

WASHINGTON, July 13.—The United States battleship Huron and three destroyers have gone to Taku, the nearest port in Peking to offer protection to Americans in case of an attack on the Chinese capital, the Navy Department announced today. Peking may be menaced by the fighting between the Chinese rebels.

DATES ARE FIXED FOR

ELECTION PROCEDURE
HARRISBURG, July 12.—Dates which will govern procedures in advance of the November election were announced today at the department of the secretary of the commonwealth which has completed the official recording of the results of the May primary and is preparing for certification of the official ballot lists in the fall. Except for Mercer county complete lists of all nomination results at the May primary have been filed at the capitol.

The time for filing nomination papers for any office will expire on Friday, September 3. The last day upon which candidates may withdraw from nomination is Monday, September 13. The last day upon which voters may be assessed for the November election are Tuesday, August 31, and Wednesday, September 1.

The cities will all have the same registration days this fall as follows: Thursday, September 2; Tuesday, September 14, and Saturday, October 2. October 2 is also the last date upon which to pay tax to qualify for the November election.

Fuel Administrator May Be Necessary

Return To Drastic Regulation Of War
Time Seems The Only Method
Of Meeting Demand

LANE WOULD BE SATISFACTORY

WASHINGTON, July 13.—Operators of practically all the large bituminous coal fields were in conference here yesterday to devise means of preventing a possible industrial shut-down from lack of coal.

So serious has the fuel shortage become that discussion was heard of a possible return of a fuel administrator who could administer the drastic war time regulations, which kept the country supplied with coal during 1917 and 1918. Should the situation not improve it is believed organization of the fuel administration will become a necessity.

President Wilson, under the terms of the Lever Act, still retains the power to recreate such a governmental agency for the efficient distribution of coal.

In an effort to avoid such contingencies by increasing the supplies and distribution of coal, the bituminous operators today conducted a series of closed conferences which will continue tomorrow.

The important development of yesterday was the appointment of the sub-committee of operators to deal immediately with the serious shortages existing in the great lakes and New England districts. Industries in both these districts are working on a reserve which may fail at any time.

The iron ore supplies of the lake districts may be seriously affected unless supplies of coal are received there immediately. This is the situation which is giving the operators the most concern, although shortages exist in many other sections.

If coal cannot be shipped from the Pennsylvania mines across the lakes, the iron ore mines cannot run and the wheelbacks cannot bring the ore down to the Pittsburgh and Youngstown smelters. This would mean the shutting down of the steel mills.

In order to exhaust every means of relieving the situation it was announced today by the bituminous operators that they would confer in New York on Wednesday with Daniel Williams of the Baltimore & Ohio railroad, and other railroad executives on the coal car situation. This is the nub of the whole shortage, and the operators believe that they may obtain valuable suggestions on car supplies from the railroad heads.

BOSTON JOYRIDERS LEAVE TRAIL OF BLOOD AND DEATH

WORCHESTER, Mass., July 13.—James W. Rice, one of an automobile party of Boston committed suicide on Main street today after he had shot Harold P. Joyce, of Boston, in the cheek following a quarrel with Abraham Smith, driver of the automobile. After shooting Joyce he fired at Mrs. Margaret Ribest, aged 27, but missed her. He also fired at Smith but his aim went wild. A policeman hearing the shooting rushed toward the automobile. Rice and the policeman exchanged shots and then Rice turned the revolver on himself and committed suicide. The police have the entire automobile party under arrest which included three men and a woman, pending further investigation of the case. The party came here from Boston. Rice it is said, agreed to pay \$75 for a trip to Worcester. When they arrived here Rice said he wanted to go to Hartford. Getting out of the car Rice reached in his hip pocket as if to get more money and pulled out a revolver, and ordered Smith to continue driving. When Main street was reached Joyce ordered the car stopped and Rice fired at him. Rice died instantly.

BIG TROUT FROM MOOSE CREEK

Some big trout are being taken out of Moose Creek these days. The trout are of the German brown variety. Yesterday Grover Rider landed a four trout, two of which measured 12 inches, one 15 and the other 18 inches. Yesterday Grover Rider landed a non-trout 21 inches in length.

Coal interests throughout the country, especially coal operators of the Central district, are expecting momentarily the appointment of a Federal fuel administrator, with powers the same as that official had during the war, if not even more drastic. Franklin K. Lane, former secretary of the interior, it is believed, will be appointed to fill the position. Information to this effect was received from Washington, D. C., by local coal operators. Should the coal industry of the country be placed again under government control, it is probable, coal men believe, that J. A. D. Morrow, vice president of the National Coal Association, with headquarters in Washington, D. C., will be appointed director of coal distribution, which office he filled satisfactorily during the war.

The reason for the belief among coal men that the coal industry will soon again be placed under government control were set forth, to a considerable extent, Saturday by Mr. Morrow before the Interstate Commerce Commission. He spoke for 2,100 bituminous coal operators throughout the country in opposition to the efforts of the sand, gravel and other shippers to have the commission modify or rescind its order No. 7, effective after June 21, giving a 30-day priority to open-top cars at bituminous coal mines. Mr. Morrow in recommending the commission's order, asserted that only by its strict enforcement can the country's immediate demand for coal and the supply for next winter be met.

RULE PROFITS HAVE NO
BEARING ON WAGES

STANTON, July 13.—The anthracite coal commission this morning decided that it has no authority to admit as evidence in the mine workers' wage dispute exhibits dealing with alleged profits and monopolistic control of the coal industry. The mine workers' representatives have presented all their exhibits and the operators will now present their case protesting the increased wage.

COMMITTEE OF 48 AMALGAMATES WITH THE LABOR PARTY

By HAROLD D. JACOBS
United Press Staff Correspondent
HOTEL MORRISON, Chicago, July 13.—All basic differences apparently have been adjusted and the new "third party" was launched today, it was announced after an all night conference of the leaders of the Committee of 48 and the American Labor party.

Indications were that the platform would provide for government ownership of public utilities, approval of the League of Nations with or without reservations, recognition of Ireland's independence, opposition to compulsory military training, equal economic, political and legal rights for all persons, "immediate restoration of free speech, free press, right of assembly and other constitutional guarantees," abolition of all injunctions in labor cases and endorsement of labor's right to organization and collective bargaining.

CHICAGO, July 13.—The National Convention of the Committee of 48 voted unanimously to amalgamate with the Labor party and fixed 2 p. m. to meet with that body in a joint convention at the Clemen's Hall. The delegates stood on their chairs and waved pennants and state standards as the decision was announced. The vote to amalgamate was taken on the report of the Committee on Politics and Procedure. The report recommended the amalgamation and that a joint convention be begun at 2 p. m.

Mrs. A. E. Toner of Mayville N. Y., and Miss Linnie Knorr of DuBois spent the week end with Miss Helen Ogden.

AMERICANS HAVE NARROW ESCAPES FROM RUSS REDS

WASHINGTON, July 13.—John Freedman, a British subject was executed and several Americans barely escaped death at the hands of an anarchistic band of Russian Bolsheviks of "the red-black" guard during the reign of terror in Siberia according to reports to the State Department from the American Consul.

LEGION STARTS CRUSADE FOR BAND PLAN EARLY MEET

The American Legion band for Clearfield was assured at a meeting of John Shade Post last evening, when it was unanimously agreed upon by the members present to get behind the project financially and otherwise and make a bang-up musical organization a possibility for the near future.

The recently appointed band committee composed of William Hoover, Harry Evans, Russell Shaw, Alva Brothers, Harry Davis and Reginald Stevens, reported that they had made a thorough canvass of the town and had received assurances from no less than thirty-five musicians of the town and vicinity that they would affiliate with the Legion band and give their services toward supplying Clearfield with what she long has needed—a good band.

The work of getting the band organization in shape was then taken up and the Commander was authorized to appoint a Board of Directors of three whose duty it will be to look after the business end of the band organization.

According to present plans the band will be called together for organization and rehearsal no later than next week.

This will be good news to Clearfield people and while the Legion voted to finance the organization out of their own funds, as they have been doing with about all their other activities, there can be no doubt that our townspeople can be counted upon for most generous assistance whenever their help is asked or required.

We hope to be able to give the personnel or line-up of the new band in an early issue of The Progress.

NEW CENSUS MAY MAKE MORE CONGRESSMEN

WASHINGTON, July 11.—A study of the census of 1920 has been started by Representative Siegel, new chairman of the House Committee on Census, who will have charge of the bill apportioning the members of the House of Representatives for the various states. If precedent is followed, the number will be increased to approximately 500 members.

The present size of 435 members grew from 391 in 1910, a jump of forty-four members. An increase has been made every decade since 1790 with the single exception of 1840. The Senate forced a reduction in size that year from 242 to 232.

Unless an increase is made in the new apportionment bill several states will lose some of their representation. Preliminary estimates place the population in 1920 is close to 105,000,000. It was 91,972,266 in 1910.

It has been estimated that ten states would lose, viz., Indiana, Iowa, and Missouri, two each; Illinois, Kentucky, Maine, Maryland, Nebraska, Vermont and Virginia, one each.

The House now is overcrowded. It has more than four times as many members as the Senate. Seats nearly fill the chamber. The old individual desks, which enabled members to stay in the House and work, were abandoned ten years ago. It is difficult to keep a quorum, because members must go to their offices to sign letters and attend to other details. Members complain they have too much to do. Each has 211,000 constituents who are writing for all kinds of things.

ENGINEER, DYING IN WRECK, MAKES WILL TO HIS WIFE

CINCINNATI, Ohio, July 13.—"I leave all I have to my wife."

Frank Myers, aged 44, a railroad engineer of Covington, Ky., made this will while rescuers tried to extract him from the wreckage of his engine which had gone through a bridge on a siding here late yesterday. Realizing his danger the engineer asked for paper and pencil and scribbled his will while dying under the wreckage. He was rushed to a hospital where he died two hours later. Attorneys said the will was valid.

Mrs. Kramer, of Scotland, is the guest of Miss Margaret Row on South Second street.

LOSES BOTH FEET WHEN MINE CARS BREAK LOOSE

Guy Braund, of Force, Pa., had the misfortune to lose both feet above the ankles on Saturday morning while engaged in the unloading of mine cars at that place. Mr. Braund who is aged 22 years and single, was dropping a loaded car under the tippie about nine thirty that morning, when without warning one of the links in the chain snapped. The car in dropping passed over both feet. He was immediately given first aid treatment by fellow employees. Dr. Hayes, of Force, was called and placed the man in a car and had him taken to the DuBois hospital where an operation was performed yesterday afternoon at three o'clock. Eight doctors were in attendance at the operation. Although suffering intense pain and fully realizing his condition Mr. Braund made the trip to this city with no complaint whatever and retained consciousness until placed under the anesthetic. His condition was reported very favorable last evening with good hopes for his recovery.

The terribly injured young man is a cousin of Al Braund of The Progress force.

WILSON WILL BE ASKED TO PARDON MR. DEBS

DETROIT, Mich., July 12.—A delegation of Socialists will call upon President Wilson within the next fortnight and demand that he immediately pardon Eugene V. Debs, Socialist Presidential nominee, now serving a term in Atlanta Federal Prison on a charge of violating the espionage law, it was decided here by the Socialist National Committee.

George F. Roever of Boston, chairman of the committee that recently called on Secretary Tamm at the White House and asked that the matter of Debs' release be called to the attention of the President, will head the delegation. James O'Neal and Morris Hilgott of New York will be other members. It is planned to organize about 200 men and women, Socialists and members of trade unions, to go to Washington.

Dr. and Mrs. James Jackson and daughter Virginia have returned to their home in Norfolk, Va., after visiting Mrs. Jackson's mother, Mrs. A. E. Magnol.

A suburb of Pittsburgh does not know whether to boast or be ashamed of having a resident who is living with two wives under the same roof. This man, a Croatian, married at Pittsburgh and later his wife from the old country appeared on the scene. They accepted the status quo and are reported to be living happily. With such perfect harmony among peoples there should be no necessity for a League of Nations.

A hanker from Great Britain came to America with a specially constructed oak barrel in which he attempted to safely make the dip over Niagara Falls. The barrel was dashed to pieces and his body is yet in the Niagara whirlpool. Tragedy such as this is a greater tragedy in that a family of twelve in Great Britain are by his foolish action cast into the whirlpool of life.

It is with a feeling of profound regret that a legion of friends learn of the early demise of ex-Commissioner H. H. Spencer. A man of ambition, thrift and clean living, he was, as all public office holders have been, the target of virulent attacks from his political enemies but his many close friends were unshaken in their faith in him and the final curtain of life descended on a man whose life had been such that he would not be afraid to meet his Maker.

GIRLS!

Which would you rather do—be a college president or fry the eggs for breakfast? That may be putting it a little crudely, but it's the question which America's most brilliant girl citizen has had to answer. And she has answered it, bless her heart, just as Lizzie Jane, the milkman's daughter, would have done—just as 999 women out of 1,000 always answer the question of lover or a career.

Helen Taft, acting president of Bryn Mawr College, looks a little regretfully at her mahogany desk and presidential robes, and does the immemorial thing—falls in love and puts the kettle on for tea.

Whether or not the eggs for breakfast and the tea will actually be prepared by her hands is a detail which doesn't count. The important thing is that she is going to marry and have a home, and if she runs a home as efficiently as she has run a college it goes without saying that sooner or later she will wear a gingham morning dress with as much grace as she does her academic gown and get a first hand acquaintance with the price of eggs.

Perhaps the feminists look upon this desertion of public life for private life a little regretfully.

But the rest of us aren't at all worried about Miss Taft's public career. We aren't even concerned about those classes in politics which she started at Bryn Mawr last year. For we feel quite sure that Mrs. Frederick Manning in an American home can be quite as useful a citizen as Helen Taft in an American college.

As a matter of fact, Miss Taft probably never stopped to evolve any of this airy philosophy about the rela-

tive values of public and private life. We have been encouraged by various feature articles which have appeared on the subject to believe that she became engaged for the age-old and thoroughly satisfactory reason—because she fell in love.

That being settled, should she need further justification, we have only to remember that the finest thing which any woman can contribute to this country is one more American home.

The women may attend conventions and vote for president and hold offices without number; it is to be hoped they will. All of these things are thoroughly well worth doing. But they aren't any of them half as important as that old war-time occupation of keeping the home fire burning. —(Editors Mail.)

SHINY PATE NO SIGN OF VIRTUE

The theory of some psychologists that bald-headed men occupy a higher moral plane than their fellows having densely covered craniums and therefore are less often found in penal institutions, is not subscribed to by Chaplain Charles M. Miller of the Western penitentiary. He says there is nothing to be found in that institution in support of such a theory.

When I talk at a chapel meeting of the men here and look over the crowd I can always see quite a sprinkling of shiny pates," said Chaplain Miller. "Of course, there are fewer bald-heads than others, but most men are not baldheaded and most of the men in this institution are young or middle-aged and have not reached the stage of baldness."

"No, I don't think much of that theory. When I was in college I used to study about criminality and criminal types of men, but from my 11 years' experience in Western penitentiary I have come to discard a good many ideas learned from books. I have come to the conclusion there is no distinctive criminal type, bald or not bald. A man may inherit criminal tendencies, yet most of us, whatever our birth and environment, are not always a long ways off from being criminals. I know men whose appearance would indicate that they were very bad men, yet I know the men to be tractable and not at all the kind of men most psychologists would make them to be."

FORMER BRADFORD RESIDENT DIES

J. I. Woolridge, a former Bradford township boy, and brother of Deputy Prisoner D. R. Woolridge, died at his home in Edgewood, Illinois, at noon on Sunday last. The deceased was born in Bradford township, May 21st, 1854. He left Pennsylvania in 1875, locating in Kansas. Some twenty-five years ago he removed to Edgewood, where he engaged successfully in farming.

He is survived by his widow, three sons and a daughter.

NEWS OF OUR NEIGHBORS CURWENSVILLE

John Blake, superintendent of the Pennsylvania Hide and Leather company, accompanied by Mrs. Blake, left yesterday morning for a three weeks vacation. Their itinerary will take them to Rochester, N. Y., where they will spend a few days with a daughter, thence to Cleveland and other western cities. Mr. Blake informed The Progress man that he was not going on a business trip, but a purely pleasure jaunt.

A number of relatives and friends of Thomas Humphrey, who resides on a farm near the old Bloom bridge, in Pike township, assembled at his home yesterday to celebrate his 80th birthday. He is one of three surviving members of Col. E. A. Irvin's old company of Bucktails. He enlisted on October 24, 1861, in Co. K, 42d Regiment, P. V., and was mustered out of the service on account of wounds received December 29th, 1862. Reminiscences were served to the entire assemblage and a jolly evening spent with the old veteran and his family.

George Fleming, the restaurant and pool room man, is confined to his home by illness.

Can any of the old timers tell us when the first automobile was bred to Curwensville and by whom? There seems to be considerable discussion over this subject and we would like to know the facts accurately.

The father and mother of Mrs. Elmer Bloom, residents of Philipburg, are visiting at the Bloom home this week.

For the want of material the construction of the James Smith big building is being held up. It is also a host of other smaller jobs wherein it is necessary to use cement and other building material.

The machinery has been placed in the new blouse factory but owing to the non-arrival of table legs which should have been here long ago, there is nothing doing down in that direction.

Based on good authority we are able to state to an inquiring public that the new picture theatre will not be built this year.

REMEMBERED COMRADES WIDOW

At last night's meeting of John Rhoads Post of the American Legion mention was made of the fact that Mrs. Robert Kyler, widow of a Legion member, recently accidentally killed, was not in the best financial condition. The boys promptly passed the hat and collected a total of \$52 which was sent to Mrs. Kyler and her baby at Sayreville this morning.

ONE O'CLOCK STOCK PRICES

NEW YORK, July 13.—One o'clock prices on the stock exchange today were: American Locomotive 103 3/4, B. & O. 32 3/4, General Motors 26 3/4, Pennsylvania 39 3/4, Southern Pacific 9 3/4, Republic Iron and Steel 9 3/4, Midvale Steel and Ordnance 42 3/4, United States Steel 107 1/2, U. S. Steel common 9 1/4, Westinghouse Electric 49 3/4.

Deputy Prothonotary D. R. Woodridge left yesterday for Edgewood, Illinois, where he goes to attend the funeral of his brother, the late J. I. Woodridge.

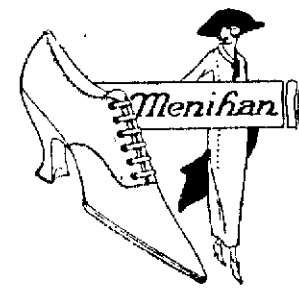

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says: "everybody uses Wyeth's Sage and Sulphur compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too." You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray has disappeared; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

WITH THE COUNTY AGENT

SCRUB PURE-BREDS

"The one thing to make sure of when going into the pure-bred business is this: Be sure you buy good pure-bred in-bred pure-bred pedigree scrubs." Thus writes one of our folks in Illinois, who tells his experience with a pure bred cow. He bought the cow six years ago and put her in the barn with his grades. She gave no more milk than his grades and the milk tested no higher. Her daughters, by a neighbor's pure-bred sire, did no better than their dam.

This only drives home what The Farm Journal has been hammering on for a long time—that there are pure-breds and PUREBREDS. And the fact that an animal is a pure-bred does not mean that it is a better producer than a grade; or if a sire, that he is a fit animal to head and build up a herd.

Take, for instance, Missouri Rector, a bull at the head of the University of Missouri herd. Ten of his daughters produced 180 pounds less of butter fat than their dams. And there was Brown Bessie's Register, another pure bred bull whose first five daughters to freshen produced eighty-seven pounds less of butter-fat per cow than their dams.

These instances must not be taken as condemnation for pure-bred sales, for a good pure-bred sire will build up production. Rather, they should be taken as condemnation of pure-bred pedigreed scrubs. The sires in question were undesirable purebreds—the kind of pure-breds a purchaser should look out for; the kind of pure-breds that should go to the block.

ALFRED WOOMER DIES AT OSCEOLA

Alfred Woomer, for many years a well known and highly respected resident of Morrisdale, but who has in the more recent years been living in Osceola, died at his home in the latter place on Friday afternoon, July 9, 1920. His death resulted from pleurisy with which he had been ill only about one week.

The deceased, a son of Mr. and Mrs. George Woomer, was born near Vail on January 13, 1833, making his age 87 years, five months and 26 days.

When still a comparatively young man he moved with his family to Morrisdale, and for a period of 35 years was a faithful weigh boss for the Morrisdale Coal Co. Retiring from active work some years ago he located in Osceola, where he made many additional friends who keenly mourn his death and will join in expressions of sympathy to the sorrowing members of the family.

Mrs. Woomer died about four years ago, but surviving are the following sons and daughters, viz: Miles, living near Philipsburg; George, of Brishin; William, of Clearfield; Mrs. J. Clark Crowell and Mrs. Annie Arnold, of Osceola, and Misses Sarah, Aggie and Laura, at home. He also leaves two brothers, Joseph and Frank Woomer, of Tyrone.

The funeral took place Monday morning from the Osceola Catholic church, of which he was a member, and was attended by a large number of friends.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is Fine for the Kidneys

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pain in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salt from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salt is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

QUICK ACTION IS NEEDED IF WOMEN ARE TO GET VOTE

HARRISBURG, July 11.—Much depends on the date on which the thirty-sixth State ratifies the Federal suffrage amendment as to whether a million and a half women in Pennsylvania will be eligible to cast a ballot at the November election.

The last day to be assessed for the payment of taxes in the State is September 1, and any favorable action on the suffrage amendment after that date will be of little benefit to the great mass of Pennsylvania women under existing election laws. Ratification of the amendment prior to September 1 will require the concerted action of County Commissioners and all assessors in order to assess the army of women who will become eligible to become voters through election law requirements carried out to qualify them.

George D. Thorn, chief of the bureau of elections of the State Department, announces that the final days of assessment throughout the State are August 31 and September 1, the latter being two months prior to election day. The last day to pay taxes on the assessment is October 2, and the registration days, which are uniform in all cities of the State, are September 2 and 14 and October 2.

State officials here are hoping that one more State required to ratify the Susan B. Anthony suffrage amendment will act early in August so that the County Commissioners, who have been urged by Attorney General William I. Schaffer to make ready for a prompt assessment of women, can have from two to three weeks to have their assessors do the required work of enrolling the women who will become eligible to vote. It has been suggested that an assessment could be made at once and later checked up and certified to when suffrage becomes a law. By this method a last-minute qualification of women voters would be possible.

Should the ratification of the Federal amendment come after September 1, or too late in August to permit of an assessment, Pennsylvania women will be deprived of their votes this fall, unless Governor Spruill calls a special session of the Legislature and the election laws on the statute books are amended by extending the time limit for assessment, payment of taxes and registration. Women property owners, who pay tax and have resided in their districts for a year, will be eligible to vote with the final ratification of the amendment, by simply registering on the personal registration days in cities, and by going to the polls in other districts and proving their residence.

The question of handling the increased number of voters which will practically be doubled with the entrance of women, is being much discussed here and it is pointed out that the courts will likely have to create many new election districts, by dividing the existing large districts where registration and election boards would be unable to handle the big increase in voting strength of the district.

HUNDREDS OF WOMEN

nowadays are entering the professions or business world and go to work day after day in bad health, afflicted with some female ailment, dragging one foot wearily after the other, working with an eye on the clock, and wishing for closing time to come.

Women in this condition should take Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. It has brought health and happiness to more women in America than any other remedy. Give it a trial.

Mr. and Mrs. Harry Jones and son Budd and Miss Sue O'Brien have returned from a motor trip to Poughkeepsie, N. Y.

MAHAFFEY TEAM WALKED OFF FIELD

Continued from Page One.

is more unfortunate that the difficulty could not have been settled and the game continued. There should be nothing but friendly rivalry between the two teams, there was nothing at stake to make men forget their true sportsmanship and it would have been better for everybody to have had the game played out.

Mahaffey has a good team, and they brought with them about one hundred loyal rooters. Everybody was enjoying the game, and with the exception noted above, there had not been a single decision of the umpires questioned.

The two teams should get together again, iron out their differences in another game and restore the former good feeling between the players and the two towns. Life is too short for bickerings and strife over such trifles after we have all grown up.

The score of the game follows:—

Mahaffey	R	H	O	A	E
Tooke, 3b.	1	0	2	1	0
Sabatta, 2b.	0	0	1	1	0
Hutty, 1f.	0	0	2	0	0
Frankton, cf.	0	2	1	0	0
Kaspin, c.	0	0	1	0	0
A. Gaylor, 1b.	0	0	0	0	0
Conley, ss.	0	1	0	0	0
Wensel, rf.	0	1	0	0	0
Probes, p.	0	0	3	1	0

Total	R	H	O	A	E
Clearfield	1	4	15	4	0
McNichol, 2b.	0	2	2	1	0
Yates, 1b.	0	1	5	1	0
Fauver, 3b.	0	0	0	0	0
Gaylor, cf.	0	0	2	0	0
Rowles, rf.	0	0	2	0	0
Alexander, 1f.	1	1	1	0	0
Robinson, ss.	1	1	3	4	0
McDonald, c.	0	1	0	1	0
Daugherty, p.	0	1	3	3	0

Total 2 7 18 10 0
Summary.—Two base hits, McNichol. Bases on balls: by Daugherty, 2; by Probes, 1. Hit by pitcher: by Daugherty, 8. Stolen bases: Tooke, Sabatta.

BASEBALL NOTES

The Wimburne ball club will meet the C. C. A. team at the park grounds tomorrow afternoon at 3:30 o'clock.

Phillipsburg will be here for Friday afternoon and as our Centre county friends generally come "loaded for bear," a real old-fashioned baseball game may be looked forward to.

The team plays at Mt. Union tomorrow afternoon.

THE NIGHT-BLOOMING CERESUS

Blacker's floral shop on Third street has a couple of handsome specimens of the night-blooming cereus in their show window. These strange and exclusive plants, which bloom annually, are scheduled to bring forth two or more flowers tonight and those interested in horticulture and flower lovers generally are invited to witness the opening of these strange but beautiful buds.

A big-scale road test on 3,200 tubes

*How Firestone
puts the miles
in — and then
proves it—not
at YOUR ex-
pense.*

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly — improvements and developments are arrived at.

By close watching of a large number of tubes in service—not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test—in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

Firestone Tubes

SAYS READOPT WAR ORPHANS

Editor Harold Ross of American Legion Weekly Urges Care by Posts of Unfortunates.

Harold W. Ross, formerly managing editor of the Stars and Stripes, which was the official publication of the American expeditionary forces in France during the war, has been appointed editor of the American Legion Weekly, official magazine of the American Legion.

Mr. Ross, a native of Colorado, entered the newspaper field more than ten years ago and worked on various papers in Salt Lake City, San Francisco, New Orleans, Atlanta, New York and Panama, but chiefly in San Francisco and the West. He enlisted as a private in April, 1917, and sailed for France August 1. He was sent to the

Harold W. Ross.

first officers' training camp at Langres, France, but was detached before receiving a commission and assigned to duty on the Stars and Stripes when that publication was started in February, 1918, and remained with it, most of the time as managing editor, until its career came to an end with the home-coming of the A. E. F. He received a citation from General Pershing and recently received a medal from the French government for originating the plan which led to the adoption of 3,567 war orphans by American soldiers overseas.

As editor of the Weekly Mr. Ross is now conducting an active campaign for the readoption of these same orphans by the more than 9,000 American Legion posts throughout the United States and in many foreign countries.

HE ADOPTS FRENCH ORPHAN

Le Roy Tucker, Former Captain, Aids Legion's Campaign in Memory of His Father.

Another contribution of \$75 for the adoption of a French war orphan, in the Legion's campaign to aid 3,000 late proteges of the A. E. F., making a total of four to date, was received at Legion national headquarters during the week ending May 29. The adopter is Le Roy Tucker, formerly captain, Twenty-fifth Engineer Service company, Twentieth Engineers, now living at 1501 West Sixth street, Topeka, Kan.

"In memory of my father, James Walter Tucker of the One Hundred and Thirty-fourth Indiana Infantry of the Civil war," the captain writes, "I want to adopt a French orphan on this Memorial day."

"As I spent most of my time in France in the Vosges mountains, doing forestry duty, I would like a little girl from the department of the Vosges, if possible. And if you have any way of knowing, select a little girl with brown eyes and hair."

"P. S.—If the young lady will write in French, I will improve my knowledge of French a bit, and if she cares to receive letters in English, I will be glad to write."

Mr. Tucker's request was forwarded, with his contribution, to the American Red Cross.

National headquarters of the American Legion has adopted two of the orphans and another has been taken under the paternal wing of Karl Ross post, Stockton, Cal.

Home for Sons of Service Men.

The national adjutant has received advice of the founding at Bennington, Vt., of a home for the care, maintenance, education and scientific instruction in agriculture and horticulture of the minor sons of soldiers or sailors who have served in the army or navy of the United States of America, or in the army or navy of any of its European allies; and thereafter for the like care, maintenance, education and scientific instruction of the lineal male descendants of such sons. It is "The Green Mountain Home, Inc."

Mrs. Thomas Duke, a former resident of the Third Ward, Clearfield, died at her home in Akron, Ohio, recently.

When You Buy Poultry Feeds

Don't make it guess-work. You can eliminate the risk by our iron-clad guarantee. The money paid for Purina Chicken Chowder will be refunded if hens, when fed

Purina Chicken Chowder with Purina Scratch Feed—the perfect balance for laying hens—as directed, do not lay more eggs than when fed with any other ration.

MORE EGGS
 MONEY BACKS
 GUARANTEED

Most hens get too much grain, a large part of which goes into surplus yolks, which the hen absorbs. This makes the hen too fat and cuts down egg production. 100 lbs. of wheat, corn, oats and barley contain elements for 224 yolks, but only 154 whites. The feed of a laying hen should supply elements for both whites and yolks in equal quantity. Purina rations are rightly balanced. Based on Experiment Station tests, Purina Feeds contain the following:

Elements for	Yolks	Whites
Purina Scratch Feed	247.49	142.11
Purina Chicken Chowder	182.05	262.55
Each feed makes	429.54	404.66

Note the larger number and almost equal proportion of whites and yolks in the Purina balanced ration. Purina feeds are scientifically mixed and insure results. In Checkerboard Bag.

A TRIAL WILL CONVINCE YOU.

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

Chamberlain's Tablets

Last Big Block of the Canadian Pacific Reserved Farm Lands

THIS announces the offering of the last big block of the Canadian Pacific Reserved Farm Lands. The lands are in the best of the Canadian Pacific Reserved Farm Lands. The lands are in the best of the Canadian Pacific Reserved Farm Lands. The lands are in the best of the Canadian Pacific Reserved Farm Lands.

Your Last Big Opportunity

This block contains both fertile open prairie and part in the Lloydminster and Battleford Districts of Central Alberta and Saskatchewan. You can buy farm lands on the rich prairie of Manitoba, Saskatchewan and Alberta at prices averaging about \$15 an acre and up. The lands are under an irrigation system of uniting water from old and new sources.

20 Years to Earn and to Pay

The Canadian Pacific offers you this land under a plan of long term, easy payments that is remarkable in the history of farming. You pay down 10%. Then you have no payment on the principal until the fourth year, then fifteen annual payments. Interest is 6%. In Central Saskatchewan, where wheat grows the world's prize wheat. World's prize wheat grows in this district.

Lands Under Irrigation

In Southern Alberta, the Canadian Pacific has developed the largest and most complete system of irrigation in the world. The lands are in the best of the Canadian Pacific Reserved Farm Lands. The lands are in the best of the Canadian Pacific Reserved Farm Lands. The lands are in the best of the Canadian Pacific Reserved Farm Lands.

No Taxes on Improvements

There is no tax on improvements on the land until you have paid for the land. The land is in the best of the Canadian Pacific Reserved Farm Lands. The land is in the best of the Canadian Pacific Reserved Farm Lands. The land is in the best of the Canadian Pacific Reserved Farm Lands.

No Sale Without Investigation

The Canadian Pacific will not sell you a piece of land until you have investigated it. The land is in the best of the Canadian Pacific Reserved Farm Lands. The land is in the best of the Canadian Pacific Reserved Farm Lands. The land is in the best of the Canadian Pacific Reserved Farm Lands.

Special Rates for Homeowners

Special rates for homeowners. The land is in the best of the Canadian Pacific Reserved Farm Lands. The land is in the best of the Canadian Pacific Reserved Farm Lands. The land is in the best of the Canadian Pacific Reserved Farm Lands.

OUR SOLDIERS of the A. E. F. were shocked to witness in France and Belgium such scenes as shown in the picture above. Yet who will say that the American housekeeper is not more deserving of sympathy?

The peasant woman has inherited from her ancestors strong muscles and rugged health and breathes, while working, the pure air of the great outdoors. Millions of American housekeepers only manage to keep their floors, carpets and home furnishings clean by inhaling clouds of dust raised by brooms and brushes.

Criticise the men of foreign lands if you will for permitting their women folk to share the labor of oxen, but have a thought for the women of tender training whose strength and vitality is more severely overtaxed in her daily housecleaning tasks.

Provide her with the help of an OHIO-TUEC Electric Vacuum Cleaner, not as a kindness but as a duty you owe her. Investigate it and prove for yourself the correctness of its scientific design and construction. Let the lady satisfy herself that the OHIO-TUEC is not only a labor and time-saver, but that it excels in efficiency any other cleaner on the market, because it "Cleans Without Beating and Pounding."

Ask us to send one to your home free trial. No obligations.

WHAT THIS SALE MEANS TO YOU

Twice a year we hold our Clearance Sale for the purpose of closing out our spring and summer merchandise. We are confident you will fully appreciate the importance of this event and will recognize it as a saving opportunity that makes a most urgent appeal for your attendance.

We desire to state with emphasis that every offering is of an unusual character. It is our belief that you can put in a week's shopping at this store to the best advantage during this great Clearance Event, and we particularly urge you to be here the first day.

SALE BEGINS TOMORROW, WEDNESDAY, JULY 14TH

ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions in 19 years. A potent pain reliever, "Bayer" tablets relieve headache, neuralgia, rheumatism, colds and flu. Handy in boxes of 12 tablets cost few cents. Druggists also sell larger Bayer packages. Aspirin is a trade mark Bayer Manufacture Monoaceticacidester of Salicylicacid.

Mrs. Mary Bamat, of Frenchville, who was operated upon at the Clearfield Hospital some two weeks ago was taken to the home of her sister Mrs. J. D. Connelly on Fourth street yesterday. Mrs. Bamat is convalescing finely.

"BUDDY"

By EVA GOLDBERG.

Preparations were being made at Jitters Palace for the invasion of "The Jolly Ten." Polly French, their president, left on an earlier train than the other members, with plans for crossing up the crude bungalow and enjoying isolation by a homelike atmosphere.

Buddy Moore, her acquaintance of half an hour, she had already adopted as camp mascot, and the little fellow proved his worth by running errands in the locality so unfamiliar to the newcomers.

"Now what a cozy touch that gives," Polly convicted herself, while she surveyed a corner where stood a settee upon which were arranged gaily colored pillows. A picture here and there—several pennants tastefully distributed—what a transformation it made on the bare wall!

While Buddy ran out to gather some wild flowers for her vase, the industrious girl undertook to repair a broken rocking chair. Missing her aim the hammer heavily struck her finger.

"My, but that hurt! What a nice blow! And was the hand swelling?" The happy youngster, with an air of fresh power, jumped in to display them. Excited Polly glanced at herself in bungalow attire, then at Buddy.

"Sonny, do you know where I can get a doctor? See what I've done!" "I don't know, Miss Polly," he ventured with childlike hesitancy, "but I can go to the village and find out."

"The village—bless your heart—that's half a mile down! You're an angel!" And she stroked his crop of golden hair. "Aren't you afraid to go all alone?" she inquired. "You can read a doctor's sign, of course?"

"Sure I can," he assured. "It says M. D., don't it? I can read—I'm seven now—in the second grade—we read hard books and write with ink, we do."

"All right dear, then remember—the first sign that reads M. D.," she shouted as he ran towards the door.

The little chap was half way down to the village when he passed a house whose brass doorknob attracted his eye. On it was displayed in large black lettering

M. D. CLARKE.

Proprietor Sunrise Studios. Spying the initials and without at tempting to decipher the rest, which was beyond his power, the youngster rang the bell and summoned the owner of that long title. A serious appearing young man approached him.

"Miss French says for you to come right over—she's hurt herself and it aches dreadfully," the boy announced without any ceremony.

Morton D. Clarke was in a quandary.

"French he asked, 'Who is she?' 'You'd better hurry,' cause she's afraid her hand's poisoned," the little messenger warned ignoring the direct question.

The artist followed the speedy little footsteps that led to the road which introduced "Jitters" Lodge, where the patient was now in severe pain.

"Oh doctor," she explained, upon meeting the hatless breathless stranger, "I would have called at your office only that I am not acquainted with this town and so sent—"

"Doctor?" he interrupted, "but there must be some mistake, girlie. I'm no doctor, but an artist—up here for the summer."

"Let me waste no time, though," he suggested when noticing the exposed wound—perhaps I can help you by phoning for one."

In a moment he was gone. Returning from the station, Mr. Clarke assured Miss French that a physician would arrive in 10 minutes. In the meantime he tried to make her forget her suffering by his engaging manner and interesting conversation.

"Now tell me," he urged, "who ever played a joke on me and gave you my name as being a doctor?"

Buddy overhearing this amusingly vindicated himself by proving the existence of an M. D. on Clarke's name.

Both Morton and Polly laughed heartily, and after medical attendance had given relief, she was better fitted to enjoy the event occasioned by well meaning innocent Buddy.

Soon the artist very thoughtfully volunteered to finish the decorations about the cottage and, by applying his artistic knowledge, great improvement did he achieve.

How satisfied Polly was! And wouldn't the girls be surprised and delighted at the welcome sight!

Nine tired vacationists greeted their president on the front porch and one observing young lady, eyeing a man whispered to Polly, "What a flirtation already?"

But in a short time everybody knew the reason for the man visitor's call.

At the end of a well-spent vacation, everybody vowed their return in another season to that dead spot. And so it was to be—only were they gifted with the power to look ahead a year they would foresee themselves as "The Jolly Ten" with a new president at the head, the former being Miss Clarke.

And again looking ahead and peering into the crystal of the "Sunset Studios," they would hear Morton say to his wife, while recollecting the instance that brought them together, "And yet he fills my white in a hunch."

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best, to enjoy in inside bath each morning, to wash one's face with the previous day's water, some irritations in the pores, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, nervous spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks. A quarter pound of limestone, plus hot water and hot water changes, purifies and freshens the skin on the outside so that it is sufficient to demonstrate that hot water is so important to the body. If you want to see the glow of healthy skin on your cheeks, to see your skin clear and clear, you are told to consider that internal sanitation is vast, more important than outside cleanliness. It is not water with a teaspoonful of limestone, phosphate in it, which is a means of washing the waste matter from the body, but it is the beauty of the complexion should just try this for a week and notice results.

MAHAFFEY TEAM WALKED OFF THE FIELD

Unfortunate Dispute Ends
Good Game Of Baseball In
The Sixth Inning.

SHOULD HAVE FINISHED GAME

There are some fellows in Clearfield little enough to crawl through the smallest worm hole in the fence surrounding the park where the C. C. A. A. team is playing rattling good baseball. Nine chances out of ten these miserable "worm holers" are the fellows who do the most knocking on the game and the playing of the players. Why don't they crawl thru the worm holes? They would not stand the chance of ruining clothes as they do when they climb over the fence or squeeze thru the boards. Spot these "worm holers."

On Thursday afternoon every man who pays an admission will be given a tag to wear. This tag will indicate that he is a real he-man and has paid his way in. The "worm holers" will have no tags. Spot them and make their miserable lives more miserable.

One of those fiascos which help no body and don't do the baseball game any good occurred at the driving park yesterday afternoon when the Mahaffey team found fault with a decision of Umpire Batten, of Clearfield, and walking off the field refused to continue to play and the game was forfeited to the home team by the usual 8 to 0 score.

The blow-up occurred at the ending of the first half of the sixth inning and was due to the only decision of the local umpire at which the visitors kicked.

Some feeling was shown in the fourth inning. There were Clearfield men on second and third in the fourth inning with Yates, our most dependable hitter, at the bat, when Hurd, the Mahaffey umpire, called two rotten strikes on him in succession. Hurd was umpiring from back of the pitcher and as the ball left the pitcher's hand he would run up two or three steps in an effort to see it cross the plate. Yates objected to the called strikes and Hurd took offense at the criticism and attempted to bench Yates. Left-handed compliments were passed between the two men at the time, but at the end of the following inning had cooled off and each apologized to the other.

In Mahaffey's half of the sixth runners were on first and second with one out, when the batter hit a long fly to deep left centre. Harry Gaylor made a fine running catch of the ball and when the ball settled into Gaylor's glove the runner on second made a dash for third. No effort was made to catch the man at third but the ball was thrown to McNichol at second, who touched the bag and Umpire Batten declared the runner out, retiring the side.

Mahaffey immediately put up a roar. Manager Byron refused to allow his men to take the field and after waiting the required time Umpire Batten forfeited the game to Clearfield 9 to 0. The score at the time was Clearfield, 2; Mahaffey, 1.

Second Baseman McNichol, Shortstop Robinson and Umpire Batten contended that the base-runner had a twenty foot lead at second when the ball was hit, and that he returned until within three or four feet of the base and stopped. When Gaylor caught the ball this runner made no attempt to touch the base as he should have done but immediately beat it for third, hence the play which ended the game.

The unfortunate happening was a surprise to the spectators, who were at sea as to the reason for the flare up of the writer among them. We, like every other spectator at the game, followed the fly ball and watched the fielder's attempt to catch it and paid no attention to the base runners. The umpire was umpiring the bases and was within twelve feet of second when the play was made.

However, it was unfortunate that such a situation should arise, and it

(Continued On Page Five.)

CHAUFFEUR A SUICIDE IS BLAMED FOR KILL- ING WIFE OF BROKER

NEW LONDON, Conn., July 13.—Bernard Geisler, chauffeur whom the authorities believed shot and killed Mrs. Arthur De Cordova, wife of his employer, a broker, on a lonely road near Stonington, Conn., and then shot himself, died in a hospital here today.

The shooting came as a climax to what authorities believe was an apparent joy ride. The body of Mrs. De Cordova was found lying beside the automobile in which the couple had been riding for several hours. Geisler's body was found across a barbed wire fence a short distance away with three bullet wounds in his temple. Between them was an army revolver.

Farmers who had seen the automobile yesterday afternoon said it was driven at a high rate of speed. Examination of the machine disclosed a half filled bottle of whiskey and many cigarette stubs. The body of Mrs. De Cordova was taken to Mystic for examination. About \$80 in cash and valuable jewelry was found.

Mrs. De Cordova was spending the summer here with her two children, a boy aged 21 and a girl aged 18. Her husband who brought the family here in July returned to New York for a few days but is expected here today.

The chauffeur came here with the family. He is married and his wife lives in New York City. He has been the chauffeur for the De Cordova family for two years. The couple started motoring early in the afternoon. They were seen on the roads near here by several persons but no one saw the shooting.

The first ones to know of the affair was a party of automobilists passing through who came upon the bodies. Geisler did not recover consciousness before he died. Mrs. De Cordova was struck by two bullets, one going through her heart and one in her left side.

NEW YORK, July 13.—Arthur De Cordova, a member of a New York brokerage firm whose wife was slain near New London, Conn., left here early today for the scene of the shooting. Relatives said that De Cordova expressed great faith in his chauffeur, Bernard Geisler who committed suicide after he shot Mrs. De Cordova. Geisler has been in the employ of the De Cordovas for several years, relatives said. Mrs. Geisler was prostrated when she heard of the shooting at her home here. She said she had received only one letter from her husband since he had gone to the summer resort. This was a short note received last Sunday.

BATTLESHIP HURON OFF TO CHINA TO PROTECT AMERICANS

WASHINGTON, July 13.—The United States battleship Huron and three destroyers have gone to Taku, the nearest port in Peking to offer protection to Americans in case of an attack on the Chinese capital, the Navy Department announced today. Peking may be menaced by the fighting between the Chinese rebels.

DATES ARE FIXED FOR

ELECTION PROCEDURE
HARRISBURG, July 12.—Dates which will govern procedures in advance of the November election were announced today at the department of the secretary of the commonwealth which has completed the official recording of the results of the May primary and is preparing for certification of the official ballot lists in the fall. Except for Mercer county complete lists of all nomination results at the May primary have been filed at the capitol.

The time for filing nomination papers for any office will expire on Friday, September 3. The last day upon which candidates may withdraw from nomination is Monday, September 13. The last day upon which voters may be assessed for the November election are Tuesday, August 31, and Wednesday, September 1.

The cities will all have the same registration days this fall as follows: Thursday, September 2; Tuesday, September 14, and Saturday, October 2. October 2 is also the last date upon which to pay tax to qualify for the November election.

Fuel Administrator May Be Necessary

Return To Drastic Regulation Of War
Time Seems The Only Method
Of Meeting Demand

LANE WOULD BE SATISFACTORY

WASHINGTON, July 13.—Operators of practically all the large bituminous coal fields were in conference here yesterday to devise means of preventing a possible industrial shut-down from lack of coal.

So serious has the fuel shortage become that discussion was heard of a possible return of a fuel administrator who could administer the drastic war time regulations, which kept the country supplied with coal during 1917 and 1918. Should the situation not improve it is believed organization of the fuel administration will become a necessity.

President Wilson, under the terms of the Lever Act, still retains the power to recreate such a governmental agency for the efficient distribution of coal.

In an effort to avoid such contingencies by increasing the supplies and distribution of coal, the bituminous operators today conducted a series of closed conferences which will continue tomorrow.

The important development of yesterday was the appointment of the sub-committee of operators to deal immediately with the serious shortages existing in the great lakes and New England districts. Industries in both these districts are working on a reserve which may fail at any time.

The iron ore supplies of the lake districts may be seriously affected unless supplies of coal are received there immediately. This is the situation which is giving the operators the most concern, although shortages exist in many other sections.

If coal cannot be shipped from the Pennsylvania mines across the lakes, the iron ore mines cannot run and the wheelbacks cannot bring the ore down to the Pittsburgh and Youngstown smelters. This would mean the shutting down of the steel mills.

In order to exhaust every means of relieving the situation it was announced today by the bituminous operators that they would confer in New York on Wednesday with Daniel Williams of the Baltimore & Ohio railroad, and other railroad executives on the coal car situation. This is the nub of the whole shortage, and the operators believe that they may obtain valuable suggestions on car supplies from the railroad heads.

BOSTON JOYRIDERS LEAVE TRAIL OF BLOOD AND DEATH

WORCHESTER, Mass., July 13.—James W. Rice, one of an automobile party of Boston committed suicide on Main street today after he had shot Harold P. Joyce, of Boston, in the cheek following a quarrel with Abraham Smith, driver of the automobile. After shooting Joyce he fired at Mrs. Margaret Ribest, aged 27, but missed her. He also fired at Smith but his aim went wild. A policeman hearing the shooting rushed toward the automobile. Rice and the policeman exchanged shots and then Rice turned the revolver on himself and committed suicide. The police have the entire automobile party under arrest which included three men and a woman, pending further investigation of the case. The party came here from Boston. Rice it is said, agreed to pay \$75 for a trip to Worcester. When they arrived here Rice said he wanted to go to Hartford. Getting out of the car Rice reached in his hip pocket as if to get more money and pulled out a revolver, and ordered Smith to continue driving. When Main street was reached Joyce ordered the car stopped and Rice fired at him. Rice died instantly.

BIG TROUT FROM MOOSE CREEK

Some big trout are being taken out of Moose Creek these days. The trout are of the German brown variety. Yesterday Grover Rider landed a four trout, two of which measured 12 inches, one 15 and the other 18 inches. Yesterday Grover Rider landed a non-trout 21 inches in length.

RULE PROFITS HAVE NO
BEARING ON WAGES

STANTON, July 13.—The anthracite coal commission this morning decided that it has no authority to admit as evidence in the mine workers' wage dispute exhibits dealing with alleged profits and monopolistic control of the coal industry. The mine workers' representatives have presented all their exhibits and the operators will now present their case protesting the increased wage.

COMMITTEE OF 48 AMALGAMATES WITH THE LABOR PARTY

By HAROLD D. JACOBS
United Press Staff Correspondent
HOTEL MORRISON, Chicago, July 13.—All basic differences apparently have been adjusted and the new "third party" was launched today, it was announced after an all night conference of the leaders of the Committee of 48 and the American Labor party.

Indications were that the platform would provide for government ownership of public utilities, approval of the League of Nations with or without reservations, recognition of Ireland's independence, opposition to compulsory military training, equal economic, political and legal rights for all persons, "immediate restoration of free speech, free press, right of assembly and other constitutional guarantees," abolition of all injunctions in labor cases and endorsement of labor's right to organization and collective bargaining.

CHICAGO, July 13.—The National Convention of the Committee of 48 voted unanimously to amalgamate with the Labor party and fixed 2 p. m. to meet with that body in a joint convention at the Carmen's Hall. The delegates stood on their chairs and waved pennants and state standards as the decision was announced. The vote to amalgamate was taken on the report of the Committee on Politics and Procedure. The report recommended the amalgamation and that a joint convention be begun at 2 p. m.

Mrs. A. E. Toner of Mayville N. Y., and Miss Linnie Knorr of DuBois spent the week end with Miss Helen Ogden.

AMERICANS HAVE NARROW ESCAPES FROM RUSS REDS

WASHINGTON, July 13.—John Freedman, a British subject was executed and several Americans barely escaped death at the hands of an anarchistic band of Russian Bolsheviks of "the red-black" guard during the reign of terror in Siberia according to reports to the State Department from the American Consul.

LEGION STARTS CRUSADE FOR BAND PLAN EARLY MEET

The American Legion band for Clearfield was assured at a meeting of John Shade Post last evening, when it was unanimously agreed upon by the members present to get behind the project financially and otherwise and make a bang-up musical organization a possibility for the near future.

The recently appointed band committee composed of William Hoover, Harry Evans, Russell Shaw, Alva Brothers, Harry Davis and Reginald Stevens, reported that they had made a thorough canvass of the town and had received assurances from no less than thirty-five musicians of the town and vicinity that they would affiliate with the Legion band and give their services toward supplying Clearfield with what she long has needed—a good band.

The work of getting the band organization in shape was then taken up and the Commander was authorized to appoint a Board of Directors of three whose duty it will be to look after the business end of the band organization.

According to present plans the band will be called together for organization and rehearsal no later than next week.

This will be good news to Clearfield people and while the Legion voted to finance the organization out of their own funds, as they have been doing with about all their other activities, there can be no doubt that our townspeople can be counted upon for most generous assistance whenever their help is asked or required.

We hope to be able to give the personnel or line-up of the new band in an early issue of The Progress.

NEW CENSUS MAY MAKE MORE CONGRESSMEN

WASHINGTON, July 11.—A study of the census of 1920 has been started by Representative Siegel, new chairman of the House Committee on Census, who will have charge of the bill apportioning the members of the House of Representatives for the various states. It precedent is followed, the number will be increased to approximately 500 members.

The present size of 435 members grew from 391 in 1910, a jump of forty-four members. An increase has been made every decade since 1790 with the single exception of 1840. The Senate forced a reduction in size that year from 242 to 232.

Unless an increase is made in the new apportionment bill several states will lose some of their representation. Preliminary estimates place the population in 1920 is close to 105,000,000. It was 91,972,266 in 1910.

It has been estimated that ten states would lose, viz., Indiana, Iowa, and Missouri, two each; Illinois, Kentucky, Maine, Maryland, Nebraska, Vermont and Virginia, one each.

The House now is overcrowded. It has more than four times as many members as the Senate. Seats nearly fill the chamber. The old individual desks, which enabled members to stay in the House and work, were abandoned ten years ago. It is difficult to keep a quorum, because members must go to their offices to sign letters and attend to other details. Members complain they have too much to do. Each has 211,000 constituents who are writing for all kinds of things.

ENGINEER, DYING IN WRECK, MAKES WILL TO HIS WIFE

CINCINNATI, Ohio, July 13.—"I leave all I have to my wife."

Frank Myers, aged 44, a railroad engineer of Covington, Ky., made this will while rescuers tried to extract him from the wreckage of his engine which had gone through a bridge on a siding here late yesterday. Realizing his danger the engineer asked for paper and pencil and scribbled his will while dying under the wreckage. He was rushed to a hospital where he died two hours later. Attorneys said the will was valid.

Mrs. Kramer, of Scotland, is the guest of Miss Margaret Row on South second street.

LOSES BOTH FEET WHEN MINE CARS BREAK LOOSE

Guy Braund, of Force, Pa., had the misfortune to lose both feet above the ankles on Saturday morning while engaged in the unloading of mine cars at that place. Mr. Braund who is aged 22 years and single, was dropping a loaded car under the tippie about nine thirty that morning, when without warning one of the links in the chain snapped. The car in dropping passed over both feet. He was immediately given first aid treatment by fellow employees. Dr. Hayes, of Force, was called and placed the man in a car and had him taken to the DuBois hospital where an operation was performed yesterday afternoon at three o'clock. Eight doctors were in attendance at the operation. Although suffering intense pain and fully realizing his condition Mr. Braund made the trip to this city with no complaint whatever and retained consciousness until placed under the anesthetic. His condition was reported very favorable last evening with good hopes for his recovery.

The terribly injured young man is a cousin of Al Braund of The Progress force.

WILSON WILL BE ASKED TO PARDON MR. DEBS

DETROIT, Mich., July 12.—A delegation of Socialists will call upon President Wilson within the next fortnight and demand that he immediately pardon Eugene V. Debs, Socialist Presidential nominee, now serving a term in Atlanta Federal Prison on a charge of violating the espionage law, it was decided here by the Socialist National Committee.

George F. Roever of Boston, chairman of the committee that recently called on Secretary Tamm at the White House and asked that the matter of Debs' release be called to the attention of the President, will head the delegation. James O'Neal and Morris Hilquett of New York will be other members. It is planned to organize about 200 men and women, Socialists and members of trade unions, to go to Washington.

Dr. and Mrs. James Jackson and daughter Virginia have returned to their home in Norfolk, Va., after visiting Mrs. Jackson's mother, Mrs. A. E. Magnol.

Entered at Post Office at Clearfield, Pa., as second class matter.

A suburb of Pittsburgh does not know whether to boast or be ashamed of having a resident who is living with two wives under the same roof. This man, a Croatian, married at Pittsburgh and later his wife from the old country appeared on the scene. They accepted the status quo and are reported to be living happily. With such perfect harmony among peoples there should be no necessity for a League of Nations.

A banker from Great Britain came to America with a specially constructed oak barrel in which he attempted to safely make the dip over Niagara Falls. The barrel was dashed to pieces and his body is yet in the Niagara whirlpool. Tragedy such as this is a greater tragedy in that a family of twelve in Great Britain are by his foolish action cast into the whirlpool of life.

It is with a feeling of profound regret that a legion of friends learn of the early demise of ex-Commissioner H. H. Spencer. A man of ambition, thrift and clean living, he was, as all public office holders have been, the target of virulent attacks from his political enemies but his many close friends were unshaken in their faith in him and the final curtain of life descended on a man whose life had been such that he would not be afraid to meet his Maker.

GIRLS!

Which would you rather do—be a college president or fry the eggs for breakfast? That may be putting it a little crudely, but it's the question which America's most brilliant girl citizen has had to answer. And she has answered it, bless her heart, just as Lizzie Jane, the milkman's daughter, would have done—just as 999 women out of 1,000 always answer the question of lover or a career.

Helen Taft, acting president of Bryn Mawr College, looks a little regretfully at her mahogany desk and presidential robes, and does the immemorial thing—falls in love and puts the kettle on for tea.

Whether or not the eggs for breakfast and the tea will actually be prepared by her hands is a detail which doesn't count. The important thing is that she is going to marry and have a home, and if she runs a home as efficiently as she has run a college it goes without saying that sooner or later she will wear a gingham morning dress with as much grace as she does her academic gown and get a first hand acquaintance with the price of eggs.

Perhaps the feminists look upon this desertion of public life for private life a little regretfully.

But the rest of us aren't at all worried about Miss Taft's public career. We aren't even concerned about those classes in politics which she started at Bryn Mawr last year. For we feel quite sure that Mrs. Frederick Manning in an American home can be quite as useful a citizen as Helen Taft in an American college.

As a matter of fact, Miss Taft probably never stopped to evolve any of this airy philosophy about the rela-

tive values of public and private life. We have been encouraged by various feature articles which have appeared on the subject to believe that she became engaged for the age-old and thoroughly satisfactory reason—because she fell in love.

That being settled, should she need further justification, we have only to remember that the finest thing which any woman can contribute to this country is one more American home.

The women may attend conventions and vote for president and hold offices without number; it is to be hoped they will. All of these things are thoroughly well worth doing. But they aren't any of them half as important as that old war-time occupation of keeping the home fire burning. —(Editors Mail.)

SHINY PATE NO SIGN OF VIRTUE

The theory of some psychologists that bald-headed men occupy a higher moral plane than their fellows having densely covered craniums and therefore are less often found in penal institutions, is not subscribed to by Chaplain Charles M. Miller of the Western penitentiary. He says there is nothing to be found in that institution in support of such a theory.

"When I talk at a chapel meeting of the men here and look over the crowd I can always see quite a sprinkling of shiny pates," said Chaplain Miller. "Of course, there are fewer bald-heads than others, but most men are not baldheaded and most of the men in this institution are young or middle-aged and have not reached the stage of baldness."

"No, I don't think much of that theory. When I was in college I used to study about criminality and criminal types of men, but from my 11 years' experience in Western penitentiary I have come to discard a good many ideas learned from books. I have come to the conclusion there is no distinctive criminal type, bald or not bald. A man may inherit criminal tendencies, yet most of us, whatever our birth and environment, are not always a long ways off from being criminals. I know men whose appearance would indicate that they were very bad men, yet I know the men to be tractable and not at all the kind of men most psychologists would make them to be."

FORMER BRADFORD RESIDENT DIES

J. I. Woolridge, a former Bradford township boy, and brother of Deputy Prisoner D. R. Woolridge, died at his home in Edgewood, Illinois, at noon on Sunday last. The deceased was born in Bradford township, May 21st, 1854. He left Pennsylvania in 1875, locating in Kansas. Some twenty-five years ago he removed to Edgewood, where he engaged successfully in farming.

He is survived by his widow, three sons and a daughter.

Not in Modern Flats.

"How I saved a policeman's life"

EVEN THE eggs.
WERE TIRED that morning.
AND THE coffee.
DIDN'T FOOL me one bit.
BUT WHEN after breakfast,
MY CIGARETTE tasted awful.
IT WAS too much.
AND A grinch started.
AND WALKING to work,
I SWORE off smoking.
AND DECIDED to fire.
MY OFFICE boy.
BUT JUST before I decided.
TO KILL a policeman.
A MAN passed me.
SMOKING A cigarette.
AND SAY but the smoke.
THAT DRIFTED back.
DID SMELL good.
AND I followed him.
INTO A store.
HE THREW down two dimes.
AND SAID "The same."
AND SO did I.
AND SO I'm still smoking.
AND STILL keep that.
OFFICE BOY and I let that.
HANDSOME POLICEMAN live.
AND I'M going to boost.
THAT MAN I followed.
FOR PRESIDENT or something.
FOR REALLY those cigarettes.
DO SATISFY.

The Clearfield Trust Company

NEWS OF OUR NEIGHBORS CURWENSVILLE

John Blake, superintendent of the Pennsylvania Hide and Leather company, accompanied by Mrs. Blake, left yesterday morning for a three weeks vacation. Their itinerary will take them to Rochester, N. Y., where they will spend a few days with a daughter, thence to Cleveland and other western cities. Mr. Blake informed The Progress man that he was not going on a business trip, but a purely pleasure jaunt.

A number of relatives and friends of Thomas Humphrey, who resides on a farm near the old Bloom bridge, in Pike township, assembled at his home yesterday to celebrate his 80th birthday. He is one of three surviving members of Col. E. A. Irvin's old company of Bucktails. He enlisted on October 24, 1861, in Co. K, 42d Regiment, P. V., and was mustered out of the service on account of wounds received December 29th, 1862. Reminiscences were served to the entire assemblage and a jolly evening spent with the old veteran and his family.

George Fleming, the restaurant and pool room man, is confined to his home by illness.

Can any of the old timers tell us when the first automobile was bred to Curwensville and by whom? There seems to be considerable discussion over this subject and we would like to know the facts accurately.

The father and mother of Mrs. Elmer Bloom, residents of Philipburg, are visiting at the Bloom home this week.

For the want of material the construction of the James Smith big building is being held up. It is also a host of other smaller jobs wherein it is necessary to use cement and other building material.

The machinery has been placed in the new blouse factory but owing to the non-arrival of table legs which should have been here long ago, there is nothing doing down in that direction.

Based on good authority we are able to state to an inquiring public that the new picture theatre will not be built this year.

REMEMBERED COMRADES WIDOW

At last night's meeting of John Phelan Post of the American Legion mention was made of the fact that Mrs. Robert Kyler, widow of a Legion member recently accidentally killed, was not in the best financial condition. The boys promptly passed the hat and collected a total of \$52 which was sent to Mrs. Kyler and her baby at Sayreville this morning.

ONE O'CLOCK STOCK PRICES

NEW YORK, July 13.—One o'clock prices on the stock exchange today were: American Locomotive 103 3/4, B. & O. 32 3/4, General Motors 26 3/4, Pennsylvania 39 3/4, Southern Pacific 9 3/4, Republic Iron and Steel 9 3/4, Midvale Steel and Ordnance 42 3/4, United States Steel 107 1/2, U. S. Steel common 9 1/4, Westinghouse Electric 49 3/4.

Deputy Prothonotary D. R. Woodridge left yesterday for Edgewood, Illinois, where he goes to attend the funeral of his brother, the late J. I. Woodridge.

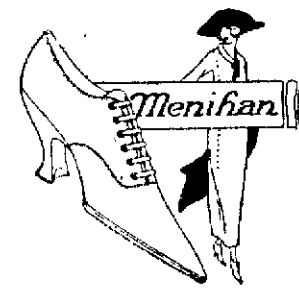

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says: "everybody uses Wyeth's Sage and Sulphur compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too." You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray has disappeared; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

WITH THE COUNTY AGENT

SCRUB PURE-BREDS

"The one thing to make sure of when going into the pure-bred business is this: Be sure you buy good pure-bred instead of pure-bred pedigree scrubs." Thus writes one of our folks in Illinois, who tells his experience with a pure bred cow. He bought the cow six years ago and put her in the barn with his grades. She gave no more milk than his grades and the milk tested no higher. Her daughters, by a neighbor's pure-bred sire, did no better than their dam.

This only drives home what The Farm Journal has been hammering on for a long time—that there are pure-breds and PUREBREDS. And the fact that an animal is a pure-bred does not mean that it is a better producer than a grade; or if a sire, that he is a fit animal to head and build up a herd.

Take, for instance, Missouri Rector, a bull at the head of the University of Missouri herd. Ten of his daughters produced 180 pounds less of butter fat than their dams. And there was Brown Bessie's Register, another pure bred bull whose first five daughters to freshen produced eighty-seven pounds less of butter-fat per cow than their dams.

These instances must not be taken as condemnation for pure-bred sales, for a good pure-bred sire will build up production. Rather, they should be taken as condemnation of pure-bred pedigree scrubs. The sires in question were undesirable purebreds—the kind of pure-breds a purchaser should look out for; the kind of purebreds that should go to the block.

ALFRED WOOMER DIES AT OSCEOLA

Alfred Woomer, for many years a well known and highly respected resident of Morrisdale, but who has in the more recent years been living in Osceola, died at his home in the latter place on Friday afternoon, July 9, 1920. His death resulted from pleurisy with which he had been ill only about one week.

The deceased, a son of Mr. and Mrs. George Woomer, was born near Vail on January 13, 1833, making his age 87 years, five months and 26 days.

When still a comparatively young man he moved with his family to Morrisdale, and for a period of 35 years was a faithful weigh boss for the Morrisdale Coal Co. Retiring from active work some years ago he located in Osceola, where he made many additional friends who keenly mourn his death and will join in expressions of sympathy to the sorrowing members of the family.

Mrs. Woomer died about four years ago, but surviving are the following sons and daughters, viz: Miles, living near Philipsburg; George, of Brishin; William, of Clearfield; Mrs. J. Clark Crowell and Mrs. Annie Arnold, of Osceola, and Misses Sarah, Aggie and Laura, at home. He also leaves two brothers, Joseph and Frank Woomer, of Tyrone.

The funeral took place Monday morning from the Osceola Catholic church, of which he was a member, and was attended by a large number of friends.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is Fine for the Kidneys

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pain in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salt from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salt is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

QUICK ACTION IS NEEDED IF WOMEN ARE TO GET VOTE

HARRISBURG, July 11.—Much depends on the date on which the thirty-sixth State ratifies the Federal suffrage amendment as to whether a million and a half women in Pennsylvania will be eligible to cast a ballot at the November election.

The last day to be assessed for the payment of taxes in the State is September 1, and any favorable action on the suffrage amendment after that date will be of little benefit to the great mass of Pennsylvania women under existing election laws. Ratification of the amendment prior to September 1 will require the concerted action of County Commissioners and all assessors in order to assess the army of women who will become eligible to become voters through election law requirements carried out to qualify them.

George D. Thorn, chief of the bureau of elections of the State Department, announces that the final days of assessment throughout the State are August 31 and September 1, the latter being two months prior to election day. The last day to pay taxes on the assessment is October 2, and the registration days, which are uniform in all cities of the State, are September 2 and 14 and October 2.

State officials here are hoping that one more State required to ratify the Susan B. Anthony suffrage amendment will act early in August so that the County Commissioners, who have been urged by Attorney General William I. Schaffer to make ready for a prompt assessment of women, can have from two to three weeks to have their assessors do the required work of enrolling the women who will become eligible to vote. It has been suggested that an assessment could be made at once and later checked up and certified to when suffrage becomes a law. By this method a last-minute qualification of women voters would be possible.

Should the ratification of the Federal amendment come after September 1, or too late in August to permit of an assessment, Pennsylvania women will be deprived of their votes this fall, unless Governor Spruill calls a special session of the Legislature and the election laws on the statute books are amended by extending the time limit for assessment, payment of taxes and registration. Women property owners, who pay tax and have resided in their districts for a year, will be eligible to vote with the final ratification of the amendment, by simply registering on the personal registration days in cities, and by going to the polls in other districts and proving their residence.

The question of handling the increased number of voters which will practically be doubled with the entrance of women, is being much discussed here and it is pointed out that the courts will likely have to create many new election districts, by dividing the existing large districts where registration and election boards would be unable to handle the big increase in voting strength of the district.

HUNDREDS OF WOMEN

nowadays are entering the professions or business world and go to work day after day in bad health, afflicted with some female ailment, dragging one foot wearily after the other, working with an eye on the clock, and wishing for closing time to come.

Women in this condition should take Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. It has brought health and happiness to more women in America than any other remedy. Give it a trial.

Mr. and Mrs. Harry Jones and son Budd and Miss Sue O'Brien have returned from a motor trip to Poughkeepsie, N. Y.

MAHAFFEY TEAM WALKED OFF FIELD

Continued from Page One.

is more unfortunate that the difficulty could not have been settled and the game continued. There should be nothing but friendly rivalry between the two teams, there was nothing at stake to make men forget their true sportsmanship and it would have been better for everybody to have had the game played out.

Mahaffey has a good team, and they brought with them about one hundred loyal rooters. Everybody was enjoying the game, and with the exception noted above, there had not been a single decision of the umpires questioned.

The two teams should get together again, iron out their differences in another game and restore the former good feeling between the players and the two towns. Life is too short for bickerings and strife over such trifles after we have all grown up.

The score of the game follows:—

Mahaffey	R	H	O	A	E
Tooke, 3b.	1	0	2	1	0
Sabatta, 2b.	0	0	1	1	0
Hutty, if.	0	0	2	0	0
Frankton, cf.	0	2	1	0	0
Kaspin, c.	0	0	1	0	0
A. Gaylor, 1b.	0	0	0	0	0
Conley, ss.	0	1	0	0	0
Wensel, rf.	0	1	0	0	0
Probes, p.	0	0	3	1	0

Total	R	H	O	A	E

BASEBALL NOTES

The Wimburne ball club will meet the C. C. A. team at the park grounds tomorrow afternoon at 3:30 o'clock.

Phillipsburg will be here for Friday afternoon and as our Centre county friends generally come "loaded for bear," a real old-fashioned baseball game may be looked forward to.

The team plays at Mt. Union tomorrow afternoon.

THE NIGHT-BLOOMING CEREUS

Blacker's floral shop on Third street has a couple of handsome specimens of the night-blooming cereus in their show window. These strange and exclusive plants, which bloom annually, are scheduled to bring forth two or more flowers tonight and those interested in horticulture and flower lovers generally are invited to witness the opening of these strange but beautiful buds.

A big-scale road test on 3,200 tubes

*How Firestone
puts the miles
in — and then
proves it—not
at YOUR ex-
pense.*

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly — improvements and developments are arrived at.

By close watching of a large number of tubes in service—not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test—in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

Firestone Tubes

Our Trust Department Is Qualified To Serve You

THIS institution gives particular attention to all classes of trust business. There is much in the way of helpful suggestion that can be gained from even a brief, confidential interview with one of our officers.

We have a service for every man, woman and child in the community, and would welcome the opportunity to suggest ways in which our service can be used to advantage in advancing your interests.

The Older Word Preferable.

Reporting a fire the other day a New York paper said: "A shirt in the wind prevented the entire plant from being destroyed." As "shirt" and the word intended are both spelled in the dictionary as "an undergarment for the body," the error wasn't such a bad one. —Boston Transcript.

SAYS READOPT WAR ORPHANS

Editor Harold Ross of American Legion Weekly Urges Care by Posts of Unfortunates.

Harold W. Ross, formerly managing editor of the Stars and Stripes, which was the official publication of the American expeditionary forces in France during the war, has been appointed editor of the American Legion Weekly, official magazine of the American Legion.

Mr. Ross, a native of Colorado, entered the newspaper field more than ten years ago and worked on various papers in Salt Lake City, San Francisco, New Orleans, Atlanta, New York and Panama, but chiefly in San Francisco and the West. He enlisted as a private in April, 1917, and sailed for France August 1. He was sent to the

Harold W. Ross.

first officers' training camp at Langres, France, but was detached before receiving a commission and assigned to duty on the Stars and Stripes when that publication was started in February, 1918, and remained with it, most of the time as managing editor, until its career came to an end with the home-coming of the A. E. F. He received a citation from General Pershing and recently received a medal from the French government for originating the plan which led to the adoption of 3,567 war orphans by American soldiers overseas.

As editor of the Weekly Mr. Ross is now conducting an active campaign for the readoption of these same orphans by the more than 9,000 American Legion posts throughout the United States and in many foreign countries.

HE ADOPTS FRENCH ORPHAN

Le Roy Tucker, Former Captain, Aids Legion's Campaign in Memory of His Father.

Another contribution of \$75 for the adoption of a French war orphan, in the Legion's campaign to aid 3,000 late proteges of the A. E. F., making a total of four to date, was received at Legion national headquarters during the week ending May 29. The adopter is Le Roy Tucker, formerly captain, Twenty-fifth Engineer Service company, Twentieth Engineers, now living at 1501 West Sixth street, Topeka, Kan.

"In memory of my father, James Walter Tucker of the One Hundred and Thirty-fourth Indiana Infantry of the Civil war," the captain writes, "I want to adopt a French orphan on this Memorial day."

"As I spent most of my time in France in the Vosges mountains, doing forestry duty, I would like a little girl from the department of the Vosges, if possible. And if you have any way of knowing, select a little girl with brown eyes and hair."

"P. S.—If the young lady will write in French, I will improve my knowledge of French a bit, and if she cares to receive letters in English, I will be glad to write."

Mr. Tucker's request was forwarded, with his contribution, to the American Red Cross.

National headquarters of the American Legion has adopted two of the orphans and another has been taken under the paternal wing of Karl Ross post, Stockton, Cal.

Home for Sons of Service Men.

The national adjutant has received advice of the founding at Bennington, Vt., of a home for the care, maintenance, education and scientific instruction in agriculture and horticulture of the minor sons of soldiers or sailors who have served in the army or navy of the United States of America, or in the army or navy of any of its European allies; and thereafter for the like care, maintenance, education and scientific instruction of the lineal male descendants of such sons. It is "The Green Mountain Home, Inc."

Mrs. Thomas Duke, a former resident of the Third Ward, Clearfield, died at her home in Akron, Ohio, recently.

When You Buy Poultry Feeds

Don't make it guess-work. You can eliminate the risk by our iron-clad guarantee. The money paid for Purina Chicken Chowder will be refunded if hens, when fed

Purina Chicken Chowder with Purina Scratch Feed—the perfect balance for laying hens—as directed, do not lay more eggs than when fed with any other ration.

MORE EGGS
 MONEY BACKS
 GUARANTEED

Most hens get too much grain, a large part of which goes into surplus yolks, which the hen absorbs. This makes the hen too fat and cuts down egg production. 100 lbs. of wheat, corn, oats and barley contain elements for 224 yolks, but only 154 whites. The feed of a laying hen should supply elements for both whites and yolks in equal quantity. Purina rations are rightly balanced. Based on Experiment Station tests, Purina Feeds contain the following:

Elements for	Yolks	Whites
Purina Scratch Feed	247.49	142.11
Purina Chicken Chowder	182.05	262.55
Each feed makes	429.54	404.66

Note the larger number and almost equal proportion of whites and yolks in the Purina balanced ration. Purina feeds are scientifically mixed and insure results. In Checkerboard Bag.

A TRIAL WILL CONVINCE YOU.

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

Chamberlain's Tablets

Last Big Block of the Canadian Pacific Reserved Farm Lands

THIS announces the offering of the last big block of the Canadian Pacific Reserved Farm Lands. The lands are in the best of the Canadian Pacific Reserved Farm Lands. The lands are in the best of the Canadian Pacific Reserved Farm Lands. The lands are in the best of the Canadian Pacific Reserved Farm Lands.

Your Last Big Opportunity

This block contains both fertile open prairie and pastured land in the Lloydminster and Battleford Districts of Central Alberta and Saskatchewan. You can buy farm lands on the rich prairie of Manitoba, Saskatchewan and Alberta at prices averaging about \$15 an acre and up. The land is under an irrigation system of uniting water from old and new sources.

No Taxes on Improvements

There is no tax on improvements made on the land. You can build a house, barn, etc., and pay no tax on it. The land is under an irrigation system of uniting water from old and new sources.

20 Years to Earn and to Pay

The Canadian Pacific offers you this land under a plan of long term, easy payments. You can pay down 10% of the purchase price. The balance is paid in 20 years. The interest is 6%.

No Sale Without Investigation

The Canadian Pacific will not sell you a piece of land until you have investigated it. We will send you a booklet containing all the facts about the land. You can also visit the land and see it for yourself.

Lands Under Irrigation

In Southern Alberta, the Canadian Pacific has developed the largest and most complete system of irrigation in the world. The land is under an irrigation system of uniting water from old and new sources.

Special Rates for Homeowners

Special rates for homeowners. The Canadian Pacific will sell you a piece of land at a special price if you are a homeowner. The price is \$1000 per acre. The land is under an irrigation system of uniting water from old and new sources.

For all information about Canada, write to C. P. R.

For all information about Canada, write to C. P. R. The Canadian Pacific will send you a booklet containing all the facts about the land. You can also visit the land and see it for yourself.

OUR SOLDIERS of the A. E. F. were shocked to witness in France and Belgium such scenes as shown in the picture above. Yet who will say that the American housekeeper is not more deserving of sympathy?

The peasant woman has inherited from her ancestors strong muscles and rugged health and breathes, while working, the pure air of the great outdoors. Millions of American housekeepers only manage to keep their floors, carpets and home furnishings clean by inhaling clouds of dust raised by brooms and brushes.

Criticize the men of foreign lands if you will for permitting their women folk to share the labor of oxen, but have a thought for the women of tender training whose strength and vitality is more severely overtaxed in her daily housecleaning tasks.

Provide her with the help of an OHIO-TUEC Electric Vacuum Cleaner, not as a kindness but as a duty you owe her. Investigate it and prove for yourself the correctness of its scientific design and construction. Let the lady satisfy herself that the OHIO-TUEC is not only a labor and time-saver, but that it excels in efficiency any other cleaner on the market, because it "Cleans Without Beating and Pounding."

Ask us to send one to your home free trial. No obligations.

WHAT THIS SALE MEANS TO YOU

Twice a year we hold our Clearance Sale for the purpose of closing out our spring and summer merchandise. We are confident you will fully appreciate the importance of this event and will recognize it as a saving opportunity that makes a most urgent appeal for your attendance.

We desire to state with emphasis that every offering is of an unusual character. It is our belief that you can put in a week's shopping at this store to the best advantage during this great Clearance Event, and we particularly urge you to be here the first day.

SALE BEGINS TOMORROW, WEDNESDAY, JULY 14TH

On The Beach or In The Water

There's complete satisfaction in any one of these early arrivals among the Bathing Suits. Designed of non-fading wool jerseys, they allow one absolute freedom while swimming or sunbathing and comfort when one prefers to loiter on the sands. Better look into these before you depart on your vacation.

Bathing Suit from \$12.50 to \$12.50.
Bathing Caps at 25c to 65c.
Bathing Shoes at 99c.

A Sale of Wash Goods Remnants

Some women have the idea that the pieces in a remnant sale are too small to use. That isn't the case by any means for if you look about you during this selling you will find any number of remnants large enough to develop into blouses or children's stock. And there are even more.

HOSIERY

Our Hosiery Department has many splendid values to offer during our July Clearance.

To look one's best and feel one's best is to enjoy in inside both each morning and at dusk, the system that provides the body with nourishment and protection. To be beautiful is absorbed into the blood, but as one, when it burns away behind a certain amount of incombustible material in the form of acids, so the food and drink taken will have in the digestive organs a certain amount of indigestible material in its composition. It is this toxins and acids which are then soaked into the blood through the very thin walls of the blood vessels, and in only an insignificant amount, the body is made unattractive.

If you want to see the glow of health on your cheeks, to see your skin as clear and clear as you are told to make, you must begin upon using a glass of hot water with a teaspoonful of instant phosphate in it. This is a true means of washing to waste the toxins from the stomach.

In a few hours from the entire alimentary tract, before putting food into the stomach, the man and woman with yellow hair spots, pimples or pallid complexion, also those who wake up with coated tongue, bad taste, nasty breath, and who are bothered with head-aches, indigestion, and stomach or colic troubles should begin this phosphate water drinking and are assured of pronounced results in one or two days. A quarter pound of instant phosphate is sufficient. If the drug is not sufficient to demineralize the soap and hot water cleans, it softens the skin on the outside, but water and lime stone phosphate on the inside organs. We must consider that internal sanitation is more important than outside beauty, because the skin pores do not so impurities into the blood, as well as out.

Women who desire to enhance the beauty of their complexion should use this for a week and notice
